

Town of Baileys Harbor Bicycle and Pedestrian Plan Public Meeting

The Town of Baileys Harbor is developing its first Bicycle and Pedestrian Plan in conjunction with the Bicycle Federation of Wisconsin. This plan will steer the development of bicycle and pedestrian facilities throughout the area and will help make Baileys Harbor safer and more accessible to cyclists and pedestrians for recreation and transportation.

As part of the planning process, a public meeting will be held to describe various bicycle facilities and gather input on what the community would like to see in a bicycle plan. This includes gathering local knowledge of problem areas, locations that should be easily accessible by bike, and needed bicycle facilities. The public meeting is:

**Tuesday, July 20
5:30pm – 6:15pm**

Baileys Harbor Town Hall
2392 County Road F
Baileys Harbor, WI 54202

Please plan on attending to offer your view of how Baileys Harbor can be a better place to bike!
